Budget influences

Financial sustainability is a key challenge for all governments, both in the short and long term. This involves the management of short-term budget influences within the context of longer-term challenges.

Council manages its finances through an annual Budget, which identifies the expected revenue and expenditure for each year. The Budget is the means by which Council makes a formal commitment of resources to provide funding for services and projects.

A long-term perspective is provided by the Strategic Resource Plan (SRP), which forms part of the Council Plan. This provides a 10 year forecast of revenues and expenditures based on a series of assumptions. It identifies the resources necessary to implement the Council Plan over coming years.

Nillumbik Shire in context

Nillumbik is an outer-metropolitan municipality located on the urban fringe of Melbourne. While small by metropolitan standards, Nillumbik is a medium-sized municipality in comparison to all Victorian councils.

Nillumbik comprises 432 square kilometres. It contains a relatively small urban area, where land use is predominantly residential. Ninety percent of the shire is rural land located outside the Urban Growth Boundary, where land is used mainly for farming, conservation or rural residential purposes. Commercial and industrial land activity in the shire is very limited. Major activity centres at Eltham and Diamond Creek provide mainly retail services to local markets. Housing is mainly detached dwellings with relatively high numbers of residents per household. Providing a consistent level of service to communities in the rural parts of Nillumbik involves additional cost to Council.

Council owns infrastructure assets with a valuation of more than \$937 million. Apart from land, these assets comprise more than \$37 million in buildings and around \$455 million in other infrastructure such as roads, bridges, drains and footpaths. Council's assets depreciate at over \$11 million per annum. Funding the annual cost for renewal of these existing assets is an important responsibility for Council, in addition to meeting community demand for new or improved assets.

Introduction

The 2020-21 Budget has been prepared in conjunction with the Council Plan and Strategic Resource Plan.

The Budget proposes a 2.00 percent increase on rates for 2020-21, which is line with the official rate cap set by the Victorian Government.

Council proposes an increase of 8.87 percent to the domestic waste service standard charge for the 2020-21 financial year. This is being driven by a significant increase in disposal costs in recycling and general waste, the responsibility Council has to rehabilitate former landfill sites at Plenty and Kangaroo Ground and a decrease in gate fee income at the Recycling and Recovery Centre. The increase is being offset by savings from the contract provider. Under the new contract arrangement, the increase imposed on Council to deliver the service is being offset by savings under the contract provider of 16.59%.

The Budget forecasts an operating surplus of \$17.6 million on an accrual accounting basis, of which 90 percent is tied to specific funding generated by grants for capital projects.

An extensive capital works program of \$33.03 million is proposed for 2020-21 including \$15.77 million in grant-funded works.

Key projects include:

- Redevelopment of the Diamond Valley Sports and Fitness Centre \$8.0 million
- Diamond Creek Trail extension \$5.9 million
- Former Plenty landfill site rehabilitation works \$3.6 million
- Road and carpark renewal \$1.48 million
- Eltham Sports Multi-Use Community Facility (floodlights and tennis courts) \$1.414 million
- Hurstbridge Outdoor Netball \$600,000
- Diamond Valley Library Redevelopment \$580,000
- Greensborough Hockey Club pavilion redevelopment \$540,000

Strategic Resource Plan

Budget preparation has been informed by the Strategic Resource Plan, which identifies the resources needed to implement the Council Plan. A copy of the Strategic Resource Plan is attached to this Budget, along with forecasts of Council's projected performance against the Victorian Auditor-General's measures of financial sustainability.

The Strategic Resource Plan has been prepared on the basis of a 2.00 percent rate increase in 2020-21 and 2021-22, followed by increases each year of 2.25 percent in each of the following years.

The Strategic Resource Plan forecasts that Council will achieve an operating surplus each year on an accrual accounting basis.

The Strategic Resource Plan also forecasts a substantial capital works program of \$107 million over the next five years. This is proposed to be funded from a combination of grants, contributions and operating revenue.

The Strategic Resource Plan is based on a series of assumptions which include:

- No real-terms growth in service capacity.
- No changes to costs for planned major capital projects and no addition of new projects.
- No further cost shifting by State and Commonwealth Governments.

The Strategic Resource Plan will continue to be reviewed on an annual basis to address any issues arising from changes to the underlying assumptions.

Process

The draft Budget is exhibited for public consultation from 26 March 2020 to 26 April 2020. Members of the community are able to view the draft Budget on Council's website and at Council's offices. Written submissions can be made until 26 April 2020 and will be considered by Council in May, prior to finalisation and adoption of the Budget. Submissions can be made via Council's website or lodged in person at Council offices.

Budget processes

Under the *Local Government Act 1989 (the Act)*, Council is required to prepare and adopt an annual budget for each financial year. The Budget is required to include certain information about the rates and charges that Council intends to levy as well as a range of other information required by the Local Government (Planning and Reporting) Regulations 2014 (the Regulations) which support the Act.

The 2020-21 Budget is for the year 1 July 2020 to 30 June 2021 and is prepared in accordance with the Act and Regulations. The Budget includes financial statements being a:

- Comprehensive Income Statement;
- Balance Sheet;
- Statement of Changes in Equity;
- Statement of Cash Flows; and;
- Statement of Capital Works.

These statements have been prepared for the year ending 30 June 2021 and are consistent with the annual financial statements which are prepared in accordance with the Australian Accounting Standards and the Local Government Model Accounts. The Budget includes detailed information about the rates and charges to be levied, the capital works program to be undertaken and other financial information which Council requires in order to make an informed decision about the adoption of the Budget.

A proposed budget is prepared in accordance with the Act and submitted to Council in March for approval in principle. Council is then required to give public notice that it intends to adopt the Budget.

Twenty eight days notice is given for the intention to adopt the proposed budget and make the Budget available for inspection at its offices and on its website. A person has a right to make a submission on any proposal contained in the Budget and any submission must be considered before adoption of the Budget by Council.

The final step is for Council to adopt the Budget after receiving and considering any submissions from interested parties. The Budget is required to be adopted by 30 June and a copy submitted to the Minister within 28 days after adoption. The key dates for the Budget process are summarised below:

Budget Trends and Summary

Council has prepared the Budget for the 2020-21 financial year which seeks to balance the demand for services and infrastructure. Key budget trends and outcomes information is provided below.

Rate trends

The graph above outlines Council's budgeted rate increase for 2020-21 and proposed increases in future years. For 2020-21, rates and charges will increase by 2.00 percent as set by the Minister.

Borrowing trends and outcomes

Council is not anticipating to take out any new borrowings over the next 10 years. The graph above outlines Council's existing loan borrowings with the declining trend reflective of current repayment schedules. Borrowings remain within the Auditor-General's low risk range.

Operating result

The expected operating result for the 2020-21 year is a surplus of \$17.596 million. The above graph projects surpluses to be achieved over the projected 10 years providing capacity for capital investment and debt reduction. The fluctuations are driven by the anticipated receipt of one-off capital grant funding, if these items are excluded Council will continue to project a surplus position.

Cash and investments

Cash and investments shown in the above graph are illustrating a strong cash position for Council as at 30 June each year through which Council is able to meet operating obligations. The balances of cash held are represented by amounts held for specific purposes including developer contributions and statutory obligations such as landfill rehabilitation.

Capital works

The capital works program for 2020-21 will be \$33.034 million, of which \$16.572 million will be funded by Council cash and \$16.462 million from grants and contributions. The capital expenditure program has been set and prioritised based on Council's assessment of the need for key projects. The 2020-21 program includes a number of projects as detailed in Section 4.5 of this document.

Working capital

The financial position is expected to improve over the projected ten years. This trend is reinforced with a strong result achieved through the working capital measure. This measure shows Council has the ability to meet short term liabilities with its current assets.

Council expenditure allocation

The chart below provides an indication of how Council allocates its expenditure across the main services to be delivered. It shows how much is allocated to each service area for every \$100.00 of rates that Council collects.

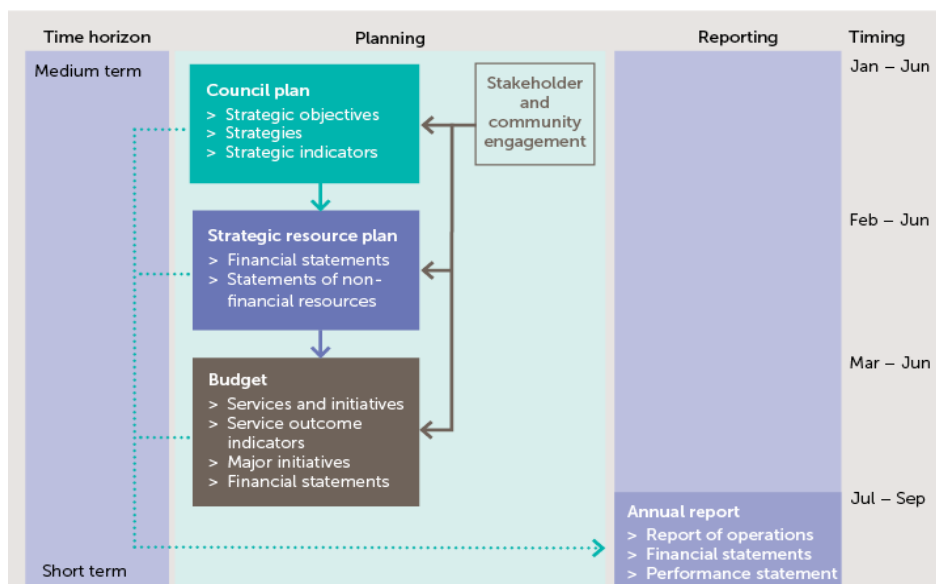

1. Link to the Council Plan

This section describes how the annual Budget links to the achievement of the Council Plan within an overall planning and reporting framework. This framework guides the Council in identifying community needs and aspirations over the long term, medium term (Council Plan) and short term (Annual Budget) and then holding itself accountable (Annual Report).

1.1 Planning and accountability framework

The Strategic Resource Plan (SRP) is prepared in conjunction with the Council Plan. The SRP is a rolling four-year plan that outlines the financial and non-financial resources that Council requires to achieve the strategic objectives described in the Council Plan. The Annual Budget is framed within the SRP, considering the services and initiatives which contribute to achieving the strategic objectives specified in the Council Plan. The diagram below depicts the planning and accountability framework that applies to Local Government in Victoria.

Source: Department of Environment, Land, Water and Planning

The Council Plan includes strategic objectives, strategies, indicators and a SRP which can be defined as follows:

- Strategic objectives – the outcomes Council wants to achieve within its four-year term
- Strategies – how Council will achieve each objective
- Indicators – how progress towards the objectives will be evaluated
- SRP – a four year budget outlining how the strategies will be financed and resourced

Each year, Council will produce an Annual Action Plan identifying how Council will work towards achieving the objectives in the Council Plan. Council prioritise major projects, capital works, service improvements as well as actions in response to Council strategies to be set out in the Annual Action Plan.

Progress against the Annual Action Plan will be detailed in Council's Annual Report, with major projects and service highlights reported to Council in a quarterly progress report.

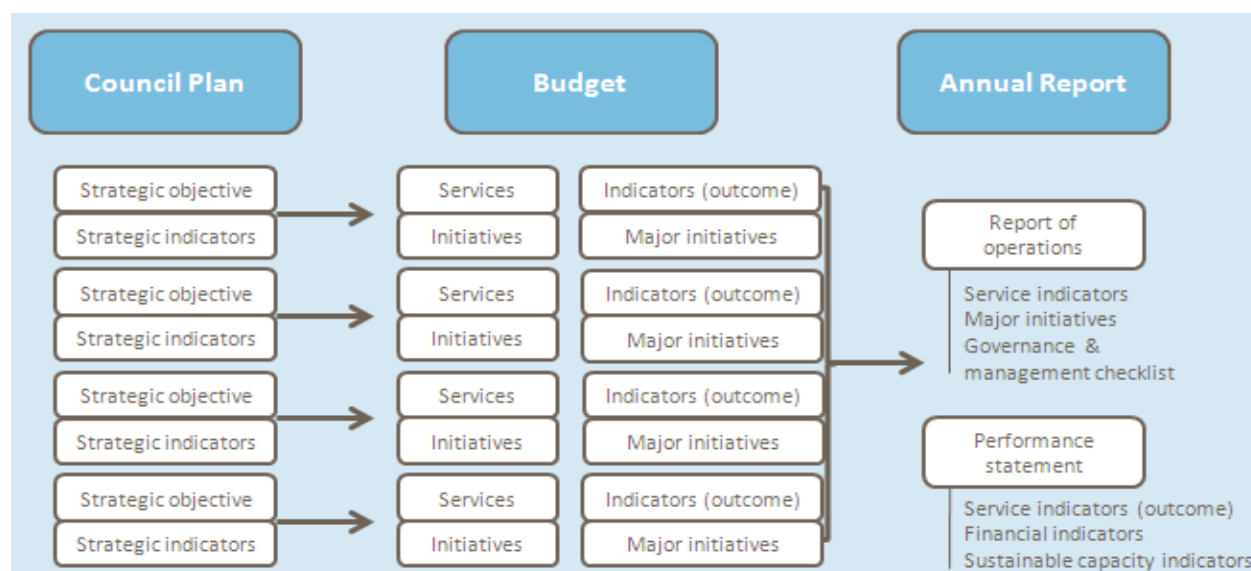

1.2 Strategic objectives

The Council delivers activities and initiatives under 30 major service categories as listed in the following pages. Each contributes to the achievement of one of the five strategic objectives as set out in the Council Plan for 2017-21. The following table lists the five strategic objectives as described in the Council Plan.

Strategic Objective	Description
1. Engaged, connected communities	A place where communities and ideas thrive, underpinned by trust, confidence and continuous learning.
2. Active and creative people	Active lifestyles and artistic expression are fostered through participation and innovation.
3. Safe and healthy environments	Healthy and safe communities enjoy living in our iconic environment.
4. A prosperous economy	A strong local economy supports business growth, jobs and community wealth.
5. Responsible leadership	Collaborative and consultative leadership builds trust and makes the best use of available resources to the benefit of all in the pursuit of excellence.

2. Services, initiatives and service performance indicators

This section provides a description of the services and major initiatives to be funded in the Budget (excluding capital works) for the 2020-21 year and how these will contribute to achieving the strategic objectives specified in the Council Plan as set out in Section 1. It also describes a number of service performance indicators for key areas of Council's operations. Council is required by legislation to identify major initiatives and service performance outcome indicators in the Budget and report against them in their Annual Report to support transparency and accountability. The relationship between these components of the Budget and the Council Plan, along with the link to reporting in the Annual Report, is shown below.

4. Notes to the financial statements

This section presents detailed information on material components of the financial statements. Council needs to assess which components are material, considering the dollar amounts and nature of these components.

4.1 Comprehensive Income Statement

4.1.1 Rates and charges

Rates and charges are required by the Act and the Regulations to be disclosed in Council's Annual Budget.

In developing the Strategic Resource Plan, rates and charges were identified as an important source of revenue. The Fair Go Rates System (FGRS) sets out the maximum amount councils may increase rates in a year. For 2020-21 the FGRS cap has been set at 2.00 percent. The cap applies to general rates and is calculated on the basis of Council's average rates and charges.

The level of required rates and charges has been considered in this context, with reference to Council's other sources of income and the planned expenditure on services and works to be undertaken for the community.

To achieve these objectives while maintaining service levels and a strong capital expenditure program, the average general rate will increase by 2.00 percent.

Rates and charges are due on a quarterly instalment basis. The due dates for the 2020-21 financial year will be:

- 30 September 2020,
- 30 November 2020,
- 28 February 2021 and
- 31 May 2021

(if any of these dates fall on a weekend, the due date will be the following Monday).

This will raise total rates and charges for 2020-21 to \$68.783 million.

4.1.1 (a) The reconciliation of the total rates and charges to the Comprehensive Income Statement is as follows:

	Forecast 2019-20 \$'000	Budget 2020-21 \$'000	Change \$'000 %

4.1.1 (k) Any significant changes that may affect the estimated amounts to be raised by rates and charges:

There are no known significant changes which may affect the estimated amounts to be raised by rates and charges. However, the total amount to be raised by rates and charges may be affected by:

- The making of supplementary valuations;
- The variation of returned levels of value (e.g. valuation appeals);
- Changes of use of land such that rateable land becomes non-rateable land and vice versa; and
- Changes of use of land such that residential land becomes business land.

4.1.1 (I) Differential rates

Rates to be levied

The rate and amount of rates payable in relation to land in each category of differential are:

- A general rate of 0.2724 percent (0.2724 cents in the dollar of CIV) for all rateable residential properties and ordinary vacant land;
- A general rate of 0.2316 percent (0.2316 cents in the dollar of CIV) for all rateable farm land properties;
- A general rate of 0.3153 percent (0.3153 cents in the dollar of CIV) for all rateable commercial and industrial properties;
- A general rate of 0.5447 percent (0.5447 cents in the dollar of CIV) for all rateable vacant land - residential and specified low density residential zones; and
- A general rate of 0.1051 percent (0.1051 cents in the dollar of CIV) for all rateable cultural and recreational properties.

Each differential rate will be determined by multiplying the Capital Improved Value (CIV) of each rateable land (categorised by the characteristics described below) by the relevant percentages indicated above.

Council considers that each differential rate will contribute to the equitable and efficient carrying out of Council functions. Details of the objectives of each differential rate, the types of classes of land, which are subject to each differential rate and the uses of each differential rate, are set out below.

Commercial land - any land used for commercial purposes

Occupied for the principal purpose of carrying out the trade in goods and services or unoccupied but zoned commercial under the State Planning Scheme

Industrial – any land used for industrial purposes

Occupied for the principal purpose of carrying out the manufacture or production of or unoccupied but zoned industrial under the State Planning Scheme.

Farm land

Land not less than 2 hectares in area; that is used primarily for grazing (including agistment), dairying, pig-farming, poultry-farming, tree farming, bee-keeping, viticulture, horticulture, fruit-growing or the growing of crops of any kind or for any combination of those activities; that is used by a business.

Land that has a significant and substantial commercial purpose or character; and that seeks to make a profit on a continuous or repetitive basis from its activities on the land; and that is making a profit from its activities on the land, or that has a reasonable prospect of making a profit from its activities on the land if it continues to operate in the way that it is operating.

Farm land with Sustainable Agriculture Rebate land

Used by the applicant for a single farm enterprise must comprise and aggregate of a minimum 30 hectares;

The property in respect of which the rebate is sought is classified as Farm Land; the applicant shall satisfy detailed criteria relating to sustainable farming practices and land care principles as developed by Council.

Other land

Unoccupied land which is not farm land, commercial/industrial land or vacant land - residential and specified low density residential zones.

Vacant Land - Residential and Specified Low Density Residential Zones

General Residential / Activity Centre Zone / Neighbourhood Residential Zones and Low Density Residential Zones (LDRZ) to which Development Planning Overlay 4 applies, on which no habitable dwelling exists.

Lots greater than 8,000 square metres in the Plenty LDRZ are excluded.

This is a higher differential to encourage construction of new dwellings in preferred locations across the Shire.

Rateable land under this definition includes Vic Roads land that is not used for transport or for residential properties.

A rebate is provided to completed constructions on vacant residential land where the double rate was charged. Half of the past 12 month's double rate (i.e. the extra amount exceeding the normal rate) will be refunded through a credit once a dwelling is constructed and a certificate of occupancy is issued and processed. The 12 month rebate will be calculated from the date of the next supplementary valuation.

Cultural and Recreational Land

Council is required to determine an amount payable as rates in respect to recreational lands.

Recreational lands are described as lands which are:

- Vested in or occupied by any body corporate or unincorporate which exists for the purpose of providing or promoting cultural or sporting recreational facilities or objectives.
- Which applies its profits in promoting its objectives and prohibits the payment of dividend or amount to members used for outdoor sporting recreational or cultural purposes or similar outdoor activities.

Total user fees	13,204	15,531	2,327	17.62

User fees (\$2.327 million increase)

User charges relate mainly to the recovery of service delivery costs through the charging of fees to users of Council's services. These include use of leisure and other community facilities and the provision of human services such as family day care and home help services. In setting the Budget, the key principle for determining the level of user charges has been to ensure that increases are generally consistent with cost increases.

Revenue generated from user charges has increased driven by the increase in charges as listed in **Appendix 1 - Nillumbik Shire Council 2020-21 Fees and Charges**. There is an overall projected increase in revenue generated by 17.62 percent, driven by a change in facility related contracts.

4.1.4 Grants

Grants - Operating (\$0.410 million decrease)

Operating grants include all monies received from State and Federal sources for the purposes of funding the delivery of Council's services to ratepayers. Overall, the level of operating grants is expected to decrease by 7.54 percent or \$0.410 million. This is mainly due to a decrease in grants for Home and Community Care (HACC) as a result of the Commonwealth Government aged care reforms and one-off grants related to Major Initiatives.

Grants - Capital (\$0.452 million increase)

Capital grants include all monies received from State, Federal and community sources for the purposes of funding the capital works program. Overall, the level of capital grants has increased by 2.95 percent or \$0.452 million mainly due to specific funding for large capital works projects in 2020-21 including funding for:

- Redevelopment of the Diamond Valley Sports and Fitness Centre;
- Diamond Creek trail construction
- Eltham Sports Multi-Use Community Facility (tennis courts and floodlights); and
- Diamond Valley Library Redevelopment

Section 4.5 Capital works program includes further detailed analysis of the grants and contributions expected to be received during the 2020-21 year.

Contributions relate to monies paid by residents in regard to road construction schemes, developer contributions or monies paid by clubs for other minor capital works.

Contributions are projected to decrease \$6.069 million when compared to the 2019-20 Budget forecast. This is mainly due to the one off receipt of contributions tied to capital projects in 2019-20.

Materials and services (\$12.433 million decrease)

Materials and services include the purchases of consumables, payments to contractors for the provision of services and utility costs. The overall movement is driven by a significant increase to the provision for landfill rehabilitation of \$13.177 million in 2019-20 to be compliant with EPA requirements and Australian Accounting Standard 137.

Other expenses (\$1.66 million decrease)

Other expenses are forecast to decrease by 21.38 percent or \$1.66 million. This is mainly as a result of reductions in aged and family services related expenditure and a reduction in operating leases costs.

4.2 Balance Sheet

4.2.1 Assets

Current Assets (\$9.280 million decrease)

Cash and cash equivalents include cash and investments such as cash held in the bank and the value of investments in deposits with short term maturities of twelve months or less.

Trade and other receivables are monies owed to Council primarily by ratepayers. Short and long term debtors are not expected to change significantly and continue to be monitored by Council.

Other assets includes items such as prepayments for expenses, inventories in Council's services and other revenues due to be received in the next 12 months.

The movement is reflective of the draw down of grant monies received for specific purposes.

Non-Current Assets (\$19.319 million increase)

Property, infrastructure, plant and equipment is the largest component of Council's worth and represents the value of all the land, buildings, roads, vehicles and equipment. The increase in this balance is attributable to the net result of the capital works program, and ongoing commitments to maintain and improve community facilities.

4.2.2 Liabilities

Current Liabilities (\$3.951 million increase)

The increase is driven by the recognition of current lease liabilities under Australian Accounting Standard 16 and the revision of the provision for landfill rehabilitation in line with scheduled works.

Non Current Liabilities (\$7.242 million decrease)

The decrease in non-current liabilities is mainly due to timing interest-bearing liabilities and provision movements.

4.2.3 Borrowings

The table below shows information on borrowings specifically required by the Regulations.

	2019-20	2020-21
	\$	\$
Amount borrowed as at 30 June of the prior year	12,092	10,779

4.2.4 Leases by category

As a result of the introduction of AASB 16 Leases, right-of-use assets and lease liabilities have been recognised as outlined in the table below.

	Forecast 2019-20 \$'000	Budget 2020-21 \$'000

Total lease liabilities	2038	1002

Where the interest rate applicable to a lease is not expressed in the lease agreement, Council applies the average incremental borrowing rate in the calculation of lease liabilities. The current incremental borrowing rate is 4.00%.

4.3 Statement of changes in Equity

4.3.1 Reserves

4.3.1 (a) Statutory reserves (\$1.766 million decrease)

These funds must be applied for specified statutory purposes in accordance with various legislative and contractual requirements. The decrease projected is illustrating the use of funds received for specific purposes.

4.3.1 (b) Discretionary reserves (\$2.498 million decrease)

These funds are not tied to a specific purpose. In this case Council has made decisions regarding the future use of these funds and unless there is a Council resolution these funds are to be used for those purposes. The decisions about future use of these funds has been reflected in Council's Strategic Resource Plan. Further details regarding reserves are included within the financial statements in section 3.

4.3.2 Equity

Equity (\$13.330 million increase)

Total equity must equal net assets and is made up of the following components:

- Asset revaluation reserve which represents the difference between the previously recorded value of assets and their current valuations.
- Other reserves that are funds that Council wishes to separately identify as being set aside to meet a specific purpose in the future and to which there is no existing liability. These amounts are transferred from the Accumulated Surplus of the Council to be separately disclosed.
- Accumulated surplus which is the value of all net assets less reserves that have accumulated over time.

The movement in other reserves reflects the net position of usage of investment cash reserves to partly fund the capital works program or operating project expenditure and additional transfers to reserves from transactions like developer contributions and asset sales.

4.4 Statement of Cash Flows

4.4.1 Net cash flows provided by/used in operating activities (\$8.467 million decrease)

The decrease is driven by to one off capital works funding through external contributions received and in materials and services.

4.4.2 Net cash flows provided by/used in investing activities (\$6.542 million decrease)

The overall decrease is a reflection of timing of cash flows associated with the capital works program for the 2020-21 year. The statement of capital works provides a full detail of projects for the 2020-21 year.

4.4.3 Net cash flows provided by/used in financing activities (\$0.746 million decrease)

In 2020-21, Council continues to make repayments on existing loans. There are no new borrowings projected hence there is no major movement.

4.5 Capital works program

This section presents a listing of the capital works projects that will be undertaken for the 2020-21 year, classified by expenditure type and funding source.

4.5.1 Summary

	Forecast 2019-20 \$'000	Budget 2020-21 \$'000	Change \$'000 %

Asset Class	Project Cost \$'000	Asset expenditure types			
		Renewal \$'000	Upgrade \$'000	Expansion \$'000	New \$'000
Property	2,661	1,742	509	80	330

Total	33,034	6,553	16,565	9,411	505

A distinction is made between expenditure on new assets, asset renewal, upgrade and expansion. Expenditure on asset renewal is expenditure on an existing asset, or on replacing an existing asset that returns the service of the asset to its original capability. Expenditure on new assets does not have any element of expansion or upgrade of existing assets but will result in an additional burden for future operation, maintenance and capital renewal.

Key to Forecast Trend:

- + Forecasts improvement in Council's financial performance/financial position indicator
- o Forecasts that Council's financial performance/financial position indicator will be steady
- Forecasts deterioration in Council's financial performance/financial position indicator

Notes to indicators**1 Adjusted underlying result**

An indicator of the sustainable operating result required to enable Council to continue to provide core services and meet its objectives. Improvement in financial performance expected over the period.

Forecast adjusted underlying result in 2019-2020 is driven by the one-off non-cash uplift to the provision for landfill rehabilitation, reflecting EPA and Accounting Standard requirements. Council is projecting to achieve surpluses, despite this positive trend projected financial sustainability remains a priority and challenge for Council.

2 Working Capital

The proportion of current liabilities represented by current assets. Despite working capital forecast remaining steady, Council will continue to maintain the ability to service short term obligations.

A strong result for the working capital indicator is showing Council can service its projected short-term obligations into the future. The result also considers specific purpose grant funding which contributes to the trend.

3 Unrestricted cash

The trend is reflective of Council's ongoing reliance on grant funding to deliver projects / programs.

This further highlights the need for Council to explore other revenue generating streams to maintain financial sustainability in the longer term.

4 Debt compared to rates

The strong results illustrate Council's commitment to pay down existing loans and not projecting any future borrowings.

5 Asset renewal

A strong focus is placed on Council's capital works program with asset renewal playing a significant role. The trend indicates Council will maintain an adequate level of renewal spending over the next ten years.

6 Rates concentration

Reflects extent of reliance on rate revenues to fund all of Council's on-going services. The trend indicates Council will have a continual reliance on rate revenue compared to all other revenue sources.

No significant changes are projected to Council operations, with the reliance on rates projected to remain consistent indicating no significant growth in rateable assessments.

Financial Sustainability Performance

This appendix outlines Council's performance against the adopted financial sustainability plan indicators for the period 2020-21 to 2029-30
