

# Learning, employment and economy Fact Sheet

**Victoria's economy is impacted by global and local trends, including environmental pressures, demographic changes, information and capital flows, and technological developments.**

Over the next 25 years, the strongest rates of employment growth are expected to be seen in health care, social assistance, education and training, professional, scientific and technical services, financial and insurance services, and construction.

The rise of the knowledge economy is based on a highly educated labour force, sophisticated technologies, and innovative products and services. The large population of highly educated and highly skilled professionals in Nillumbik aligns well with this transition.

you Live

## Industry

## Where workers live

The Shire has a strong offering of sport and recreational activities and facilities. Additionally, heritage, arts and culture play a role within the economy, particularly as it applies to visitor attraction. There is an opportunity to ensure these are strengthened as contributors to the economy, wellbeing of residents, and attracting visitors and events.

Working in partnership with local and regional business and tourism associations, Nillumbik can strengthen its reputation as a recognised destination for cultural experiences, boutique food events, and semi-rural regional experiences on Melbourne's fringe.

## The economy and employment in the future: what we can expect

Technology, local and global trends will continue to transform the types of available work, replacing routine-type jobs with higher-skilled work in high-knowledge industries.

While work is likely to become more flexible, the future distribution of jobs will most likely result in residents still needing to travel outside of Nillumbik for work, requiring improved transport options.

## The economy and employment in the future: what can we do?

Enhance Nillumbik's reputation as a desirable place to establish a business, live, work and play.

Grow our vibrant activity centres and employment precincts in Eltham and Diamond Creek.
